

# Summary of Findings – Dundas Youth Surveys

## Main Conclusions

- 96% of participants in this survey live in Dundas, Ontario
- Majority of participants ranked **a person or place to help with drug/alcohol addictions** and **part-time employment** as very important. The majority of participants ranked **social activities** and **a person or place to help with mental health concerns** as important (see Figure 2).
- Many participants stated miscellaneous comments that would improve their life in Dundas. Some common themes were related to **less bullying, more things to do within Dundas, better transportation, and easier/better access to health services** (such as mental health services).
- The majority of participants stated that they would attend a **cooking group, and many expressed interest in a social skills group, thoughts and feelings group, or learn to run group.**

Learn to Run Group	Film Group	Social Skills Group	Cooking Group	Thoughts and Feelings Group	Drug Use/ Drinking Support Group	Drug Use/Drinking Support Group for Family
35%	17%	43%	70%	39%	17%	26%

**Table 1.** Percentage of participants who stated they would attend each group.
